PROFILE

I am an aspiring Mern stack Developer with expertise in building dynamic, user-friendly web applications using React, JavaScript, HTML, CSS, and Angular. Having recently completed my training at Luminar Technolab, I am eager to apply my skills in creating responsive and interactive user interfaces. I am passionate about learning new technologies, solving problems, and contributing to innovative projects in the tech industry. I am proficient in modern front-end development practices, including component-based architecture, state management (using tools like Redux or Context API), and building RESTful APIs to ensure seamless communication between front-end and back-end systems.
